Student Success Framework:

A Tool to Characterize Strategies at Broad-access Universities

Colleen Moore, Cynthia Schrager, Kathy Reeves Bracco

This framework was developed based on a review of research and national initiatives related to improving student success in broad-access universities, as part of the report titled <u>From Scatterplot to Roadmap: New Efforts to Improve Student Success in The California State University</u>. The framework maps six broad categories of institutional actions along four developmental stages of the student pathway through college. This document, which characterizes common strategies in the form of questions, might be helpful in framing student success planning discussions at campuses.

	Student Pathway through the University				
Institutional Actions	Preparing for and Choosing the University	Enrolling and Early Attendance	Selecting a Major and Meeting Requirements	Preparing for Graduation and Future Plans	
Leadership and Governance	Are outreach and admissions efforts connected to the academic and student services functions to support the success of students who enroll? Do campus leaders collaborate with leaders of high schools (HSs), community colleges (CCs) and community organizations to encourage students to attend college and to help students and families understand campus processes? Do campus leaders partner with HS and CC	Is accountability for student success of governance structure and broad repres Do campus leaders routinely includes Do campus leaders facilitate collaborate Do campus leaders ensure that data of faculty and staff, and used to support Do campus leaders demonstrate and of	dership foster a culture that emphasizes shared responsibility for student success? for student success clearly assigned to a senior officer(s) and/or a committee with a clear sture and broad representation across divisions and roles? ers routinely include student success in campus messaging? ers facilitate collaboration across divisions and departments in support of student success? ers ensure that data on student progress and outcomes are disseminated widely to administrators, and used to support decision making around student success? ers demonstrate and communicate a commitment to diversity and inclusion? etion maximize the utilization of classrooms and other physical spaces to support student progress?		
	leaders to support regional planning around enrollment and capacity issues?			Is the institution partnering with regional leaders (private, public, and non-profit) to serve community workforce and education needs?	

	Student Pathway through the University			
Institutional Actions	Preparing for and Choosing the University	Enrolling and Early Attendance	Selecting a Major and Meeting Requirements	Preparing for Graduation and Future Plans
Data-informed Decision-Making	Does the institution routinely share data with HSs/CCs, and engage in discussions of those data to understand student progress and success across educational sectors?	schedules to meet student needs? Does the institution evaluate the effect resources to best support student outcomes to best support student outcomes the campus use data to identify, demographic groups?	m an online degree audit/planning syst ctiveness of student success programs, a comes? track, and address disparities in progree hboards or other means of providing ea	em as a basis for developing course and use that information to direct ess and success across
		,	inform program planning and resource allocation?	

	Student Pathway through the University			
Institutional Actions	Preparing for and Choosing the University	Enrolling and Early Attendance	Selecting a Major and Meeting Requirements	Preparing for Graduation and Future Plans
	Does the campus collaborate with HSs and CCs to ensure alignment of program pathways?	Are course schedules developed to maximize the availability of courses students need to meet degree requirements? Does the university use hybrid and online instruction, summer terms, and intercessions to expand capacity in high-demand courses? Does the campus ensure that academic policies related to course repeats/failures and academic probation support student progress and success?		
		Does the institution make efforts to maximize student placement in college-level English and math? Are remedial programs streamlined to facilitate student progress? Are gateway courses with high failure rates redesigned? Does the institution use competency tests or other means to award credit for prior learning?	Do program curricula limit excessive requirements? Does the institution provide clear roadmaps for students that clarify program requirements and a plan for completion within 2 (for community college transfers) or 4 (for native freshmen) years?	Do faculty consider labor market data and other sources of information to ensure that programs and curricula meet current needs and student interests?
		Does the institution use block scheduling or first year course packages?		

	Student Pathway through the University			
Institutional Actions	Preparing for and Choosing the University	Enrolling and Early Attendance	Selecting a Major and Meeting Requirements	Preparing for Graduation and Future Plans
Academic Engagement	Do faculty actively collaborate with feeder HSs/CCs to enhance students' academic readiness for CSU	Does the institution increasing tenure density to support faculty-student engagement in practices demonstrated to increase student success?		
		Does the institution promote critical thinking skills across the curriculum?		
		Does the institution recognize studer	nts' academic achievements and attainr	nent of milestones?
		Does the institution ensure access to	academic enrichment opportunities ac	ross demographic groups?
		Does the university create spaces for student/faculty interaction outside the classroom?		
		Does the campus provide ample opportunities for on-campus employment, housing, and activities to encourage students to maximize their time on campus?		
		Does the institution provide learning communities and other options to connect students with others who have similar goals and interests? Does the university make first-year experience programs broadly available?	Are opportunities for service learning, study abroad, and undergraduate research actively developed and promoted by the university?	Does the university require a senior capstone experience to help students integrate and apply their learning? Does the institution collaborate with regional employers to provide internship opportunities?
		Are faculty involved in orientation programs, particularly for transfer students entering majors?		
		Does the institution provide targeted programs or supports (beyond orientation) for incoming transfer students?		
		Does the university utilize a summer bridge program to provide a head start for incoming students?		

	Student Pathway through the University			
Institutional Actions	Preparing for and Choosing the University	Enrolling and Early Attendance	Selecting a Major and Meeting Requirements	Preparing for Graduation and Future Plans
Support Services Support Services	Do student services professionals maintain frequent communication with HS and CC counselors regarding changes to admissions requirements, program curricula, etc.? Does the institution provide clear information to prospective students and their families about the real costs of attendance and opportunities for financial aid?	Are support services placed in high-visibil Does the institution hire sufficient staff ac graduation rates? Does the institution optimize the organized Does the institution provide online degree coursework and other requirements to comboes the university provide peer mentors. Is the institution proactive in providing lestruggling students? Do support services directly address the nate of institution designate resources to Does the institution designate resources to Does the institution provide sufficient residence to be institution have incentives for steen rollment, extrated advising. Does the institution provide mandatory transition programs for both freshmen and transfer students (e.g., orientation, college success course) to support their adjustment to the campus and their knowledge of available services? Does the institution actively engage with parents/family to bridge traditional family/cultural values and new university norms? Does the university mandate early and regular advising? Does the institution provide services to increase students' financial literacy, especially around the impact of loans and working on completion and time	lity areas on campus? dvisors and/or do they hire advisors who ation of advising resources to better sup e audit/planning software for use by stu uplete a degree? Advisors in addition to regular advisors arning assistance programs (e.g., tutoris eeds of underrepresented and at-risk street students' financial needs with limite to be allocated to students as needed for idential and commuter support services	ose responsibilities include increasing oport student success? Idents and advisors in planning to support students? Ing, supplemental instruction) to Ident populations? d reliance on loans and work hours? emergencies?

	Student Pathway through the University				
Institutional Actions	Preparing for and Choosing the University	Enrolling and Early Attendance	Selecting a Major and Meeting Requirements	Preparing for Graduation and Future Plans	
Professional Development		Are advising staff trained to use degree audit/planning software and other tools to help students stay on track and complete their degrees? Does the institution provide support for new faculty to learn campus processes and to help integrate them into the campus culture?			
		Are faculty provided training on innovative instructional methods and technology (e.g., flipped classroom, hybrid courses)?			
		Does the institution implement faculty learning communities and/or faculty mentoring programs?			
		Does the institution support the development of cultural competencies among faculty and staff to support learning and success for diverse student populations?			
		Are faculty trained in advising and data utilization in addition to pedagogy to support student success?			
		Does the institution support faculty in implementing pedagogical changes to increase success in remedial and gateway courses?	Are advising staff adequately trained and kept up to date on major/program requirements?	Are faculty and advising staff provided training on helping students make the transition to post-graduation plans?
